GENERAL INDEX, VOLUME 104, NO. 1, 2, AND 3 (1959)

Acid-fast bacteria, from cold-blooded animals, metabolic study of, 28
Adenovirus infections in naval recruits, 61
Agglutination of papain-treated erythrocytes, 253
Allen, Rae. See Finkelstein
Antibody, Colorado tick fever, a tissue culture neutralization test for, 174
Antibody, fluorescent, used to identify *Past. pestis*, 274, 281, 288
Antigens, comparative study of rabbit hemolysins to various, 105
Antiserum, specific, production with *Past. pestis* antigen, 274
Ashcroft, M. T. The effect of cortisone on *Trypanosoma rhodesiense* infections of albino rats, 130

Bartonella muris, as parasite, effect on lifespan of rat erythrocytes, 24
Becker, Joan R. See Nelson
Brown, Arthur, Sami A. Mayyasi, and J. Earle Officer. The "toxic" activity of vaccinia virus in tissue culture, 193
Burgdorfer, Willy. Colorado tick fever: The behavior of CTF virus in the porcupine, 101

Cantrell, William. Cortisone and the course of *Trypanosoma equiperdum* infection in the rat, 71
Chlortetracycline, effect on immunological response of turkeys with ornithosis, 56
Cholvin, N. R., E. V. Morse, and R. F. Langham. Experimental *Leptospira pomona* infections in dogs, 92
Clostridium perfringens, growth and lecithinase production by, 142
Cold-blooded animals, metabolic study of acid-fast bacteria from, 28
Coleman, Marion B., Mildred S. Wilson, and Catherine M. Sickinger. Serotypes of salmonella in New York State outside New York City, 207
Colorado tick fever antibody, a tissue culture neutralization test for, 174
Colorado tick fever, behavior of virus in porcupine, 101
Cordy, D. R., and John W. Osebold. The neuropathogenesis of listeria encephalomyelitis in sheep and mice, 164
Cortisone and the course of *Trypanosoma equiperdum* infection in the rat, 71
Cortisone, its effect on *Trypanosoma rhodesiense* infections of rats, 130
Cysts, metacercarial, observations on nature of, 138

Davis, D. E., and J. R. Watkins. The effect of chlortetracycline on the immunological response of turkeys infected with ornithosis, 56
Disinfection, residual surface, effect of orthophenylphenol treatment of the floor, 41
Dunklin, Edward W., and William Lester, Jr. Residual surface disinfection. II. The effect of orthophenylphenol treatment of the floor on bacterial contamination in a recovery room, 41

Eklund, Carl M. See Gerloff
Encephalomyelitis, listeria, neuropathogenesis in sheep and mice, 164
Enterobacteriaceae, pathogenic and nonpathogenic, infection-promoting effect of intermediates of tricarboxylic acid cycle on, 5
Epithelial cells, human, in tissue culture, action of mumps viral cytolysin on, 38
Erythrocytes, papain-treated, immunological behavior of, 253, 261
Erythrocytes, rat, lifespan when parasitized by *Bartonella muris*, 24
Evans, E. Edward. See Levine

Feigen, George A., Ignatius L. Trapani, and Mary S. Hurd. Immunological behavior of papain-treated erythrocytes. I. Specific agglutination and sedimentation, 253
Feigen, George A. See Trapani
Ferreira, I. See Furness
Finkelstein, Richard A., Rae Allen, and S. Edward Sulkin. Inhibition of herpes simplex virus by normal serum: Its relationship to the properdin system, 184
Furness, G., and I. Ferreira. The role of macrophages in natural immunity to salmonellae, 203

Gale, C., B. S. Pomeroy, and V. L. Sanger. Characterization in mice of a turkey ornithosis virus of low virulence, 295
Gerloff, Robert K., and Carl M. Eklund. A tissue culture neutralization test for Colorado tick fever antibody and use of the test for serologic surveys, 174
Goulson, Hilton T. See Larsh
Grayston, J. Thomas, Robert L. Woolridge, Clayton G. Loosli, Benjamin F. Gundelfinger, Paul B. Johnston, and Willard E. Pierce. Adenovirus infections in naval recruits, 61
Gundelfinger, Benjamin F. See Grayston

Hemagglutinins, effects of X rays on, 152
Hemolysin, studies of *Vibrio cholerae*, 238
Hemolysins, rabbit, comparison to Forssman antigen of guinea pig kidney, human type A red cells, and sheep red cells, 105
Hemolysis, immune, of papain-treated erythrocytes, 261
Herpes simplex virus, its inhibition by normal serum, 184
Hollingsworth, J. W. See Rudnick
Hurd, Mary S. See Feigen

Immunity, innate, to *Trypanosoma duttoni* in mice, 119
Immunity, natural, to salmonellae, role of macrophages in, 203
Immunization of mice to *Trichinella spiralis*, with irradiated larvae, 156

Jaroslow, Bernard N. The effects of X or neutron irradiation, India ink blockade, or splenectomy on innate immunity against *Trypanosoma duttoni* in mice, 119
Jayko, Lawrence G., and Herman C. Lichstein. Nutritional factors concerned with growth and lecithinase production by *Clostridium perfringens*, 142
Johnston, Paul B. See Grayston

Kabler, Paul W. See Levine

Langham, R. F. See Cholvin
Larsh, John E., Jr., George J. Race, and Hilton T. Goulson. A histopathologic study of mice immunized with irradiated larvae of *Trichinella spiralis*, 156
Lecithinase production and growth related to nutritional factors in *Clostridium perfringens*, 142
Leptospira pomona infections, experimental, in dogs, 92
Lester, William, Jr. See Dunklin
Levine, Seymour, E. Edward Evans, and Paul W. Kabler. Studies of cryptococcus polysaccharides by infrared spectrophotometry, 269
Lewert, Robert M. See Singh
Lichstein, Herman C. See Jayko
Liu, Pinghui V. Studies on the hemolysin of *Vibrio cholerae*, 238
Loosli, Clayton G. See Grayston
Luzzio, Anthony J. Effects of X rays on hemagglutinins, 152

Macrophages, their role in natural immunity to salmonellae, 203
Matheson, Ballem H., and Roger W. Reed. Experimental nephritis due to type specific streptococci. III. Biological, chemical and physical studies on type 12 nephritogenic substance, 213
Mayyasi, Sami A. See Brown
Metabolic study of acid-fast bacteria from cold-blooded animals, 28
Moody, Max D., and Carrie C. Winter. Rapid identification of *Past. pestis* with fluorescent antibody. III. Staining *Past. pestis* in tissue impression smears, 288
Moody, Max D. See Winter
Morgan, Herbert R. See Russell
Morse, E. V. See Cholvin
Mumps viral cytolysin, action on human epithelial cells in tissue culture, 38

Nelson, Eric L., and Joan R. Becker. The effect of whole-body X irradiation on the bactericidal activity of phagocytic cells. I. Survival of *Pseudomonas aeruginosa* within phagocytes from peritoneal exudates of mice, 13 II. Survival of *Pseudomonas aeruginosa* within livers and spleens of mice, 20
Nephritis, experimental, due to type specific streptococci, 213
Neuropathogenesis of listeria encephalomyelitis in sheep and mice, 164
Note to contributors to the *Journal of Infectious Diseases*, 1
Notocotylus urbanensis, observations of metacercarial cysts in, 138

Officer, J. Earle. See Brown
Olitzki, A. L., and Z. Olitzki. The infection-promoting effect of intermediates of the tricarboxylic acid cycle on pathogenic and nonpathogenic *Enterobacteriaceae*, 5
Olitzki, Z. See Olitzki, A. L.
Ornithosis, turkey
  Characterized in mice, 295
  Effect of chlortetracycline on immunological response in, 56
Orthophenylphenol, residual surface disinfection with, 41
Osebold, John W. See Cordy

Pasteurella pestis
Rapid identification with fluorescent antibody, 274, 281, 288
Specific components of, modification of pneumonic plague by antibody against, 85
Pierce, Willard E. See Grayston
Pneumonic plague in mice
Gross and histopathology in untreated passively immunized animals, 78
Modification of infection by antibody against specific components of *Past. pestis*, 85
Polysaccharides, cryptococcus, studies by infrared spectrophotometry, 269
Pomeroy, B. S. See Gale
Properdin system, as related to inhibition of herpes simplex virus by normal serum, 184
Pseudomonas aeruginosa
Survival within phagocytes from peritoneal exudates of mice after whole-body X irradiation, 13
Survival within livers and spleens of mice after whole-body X irradiation, 20

Race, George J. See Larsh
Reed, Roger W. See Matheson
Respiratory illness, relationship to streptococci in throats of mother and child, 233
Rudnick, Paul, and J. W. Hollingsworth. Lifespan of rat erythrocytes parasitized by *Bartonella muris*, 24
Russell, Philip K., and Herbert R. Morgan. Mumps viral cytolysin, I. Action on human epithelial cells in tissue culture, 38

Salmonella, serotypes in New York State, 207
Salmonellae, natural immunity to, role of macrophages in 203
Sanger, V. L. See Gale
Saslaw, Milton S., and Murray M. Streitfeld. Recovery of beta hemolytic streptococci from throats of mother and child: Relationship to respiratory illness, 233
Serum, normal, as used to inhibit herpes simplex virus, 184
Sickinger, Catherine M. See Coleman
Singh, Kunwar Suresh, and Robert M. Lewert. Observations on the formation and chemical nature of metacercarial cysts of *Notocotylus urbanensis*, 138
Smears
Dried, in identification of *Past. pestis*, 281
Tissue impression, used in staining *Past. pestis*, 288
Smith, P. N. Pneumonic plague in mice. I. Gross and histopathology in untreated and passively immunized animals, 78
II. Modification of the infection by antibody against specific components of *Past. pestis*, 85
Spectrophotometry, infrared, studies of cryptococcus polysaccharides, 269
Stelos, Peter, and William H. Taliaferro. Comparative study of rabbit hemolysins to various antigens. II. Hemolysins to the Forssman antigen of guinea pig kidney, human type A red cells and sheep red cells, 105
Streitfeld, Murray M. See Saslaw
Streptococci, beta hemolytic, in throats of mother and child, 233
Streptococci, type specific, cause of experimental nephritis, 213
Sulkin, S. Edward. See Finkelstein

Taliaferro, William H. See Stelos
Test, tissue culture neutralization, for Colorado tick fever antibody, use of test for serologic surveys, 174
Trapani, Ignatius L., and George A. Feigen. Immunological behavior of papain-treated erythrocytes. II. Immune hemolysis, 261
Trapani, Ignatius L. See Feigen
Tricarboxylic acid cycle, infection-promoting effect of its intermediates on pathogenic and nonpathogenic *Enterobacteriaceae*. 5
Trichinella spiralis, histopathologic study of mice immunized with irradiated larvae of, 156
Trypanosoma duttoni in mice, effects of irradiation, splenectomy, and India ink blockade on innate immunity, 119
Trypanosoma equiperdum in rat, as affected by cortisone, 71
Trypanosoma rhodesiense infections of rats, effect of cortisone on, 130

Vibrio cholerae, hemolysin studies, 238
Virus, low virulence ornithosis, in mice, 295
Virus, vaccinia, toxic activity in tissue culture, 193
Vogel, Henry. A metabolic study of acid-fast bacteria from cold-blooded animals, 28

Watkins, J. R. See Davis
Wilson, Mildred S. See Coleman
Winter, Carrie C., and Max D. Moody. Rapid identification of *Past. pestis* with fluorescent antibody. I. Production of specific antiserum with whole cell *Past. pestis* antigen, 274
II. Specific identification of *Past. pestis* in dried smears, 281
Winter, Carrie C. See Moody
Woolridge, Robert L. See Grayston

X irradiation, whole-body, effect on bactericidal activity of phagocytic cells, 13, 20
X or neutron irradiation, effect on innate immunity to *Trypanosoma duttoni*, 119
X rays, their effects on hemagglutinins, 152

GENERAL INDEX, VOLUME 105, NO. 1, 2, AND 3 (1959)

Antibodies to *Trypanosoma lewisi*, electrophoretic and ultracentrifugal studies, 76
Antibody, fluorescein-labeled, used to detect *Leptospira pomona* in urine, 118
Antibody size, relationship to hemolytic and complement-fixing activities, 69
Antibody studies, fluorescent, of *Trichinella spiralis*, 97
Asian influenza epidemics, second occurring in vaccinated servicemen, 38
Asian influenza virus, mouse adaptation of, 9
Avian embryos, infection with crithidia species and *Leishmania tarentola*, 18

Beam, W. E., Jr., Grayston, J. T. and Watten, R. H. Second Asian influenza epidemics occurring in vaccinated men aboard U. S. Navy vessels, 38
Bell, J. F. and Hadlow, W. J. Responses of newborn and adult domestic rabbits (*Oryctolagus*) to infections with Coxsackie virus, 54
Bloom, H. H., Mack, W. N., Krueger, B. J. and Mallmann, W. L. Identification of enteroviruses in sewage, 61
Boatman, E. S. See Weiser
Böhme, D. and Bouvier, C. A. Influence of infection upon the reticuloendothelial system, internal organs, and distribution of circulating leucocytes of normal albino mice, 222
Bouvier, C. A. See Böhme

Carton, C. A. See Ellison
Cell cultures, of human leprosy bacilli, 73
Cobure, A. See Salvin
Cohen, S. G. and Sapp, T. M. Histopathologic cardiovascular responses to passive sensitization, 124
Complement-fixation, detection of leptospiral antigens by, 280
Cortisone, as cause of reversal of innate resistance to *Trichinella spiralis* in hamsters, 253
Coxsackie viruses, responses of rabbits to, 54
Crithidia species, in avian embryos, 18

D'Alesandro, P. A. Electrophoretic and ultracentrifugal studies of antibodies to *Trypanosoma lewisi*, 76
Dusanic, D. See Lewert
Dusanic, D. G. Histochemical observations of alkaline phosphatase in *Schistosoma mansoni*, 1

Ellison, S. A., Carton, C. A. and Rose, H. M. Studies of rel current herpes simplex infections following section o the trigeminal nerve, 161
Encephalitis, eastern equine
  Experimental infection in wild birds, 188
  Natural and experimental infections in swine, 293
Encephalo-meningeal syndrome affecting germfree chickens, 31
Enright, J. B. See Sadler
Enteric bacteria and phage, effect of buffered glycerol saline on viability, 274
Enteroviruses, identification in sewage, 61
Enzymes of *Schistosoma mansoni* cercariae, inhibition by serums, 180

Germfree and monocontaminated chickens, encephalomeningeal syndrome in, 31
Goodman, H. S. The relationship of antibody size to hemolytic and complement-fixing activities, 69
Gordon, H. A., Wagner, M., Luckey, T. D. and Reyniers, J. A. An encephalo-meningeal syndrome selectively affecting newly hatched germfree and monocontaminated chickens, 31
Grayston, J. T. See Beam

Hadlow, W. J. See Bell
Hamsters, innate resistance to *Trichinella spiralis*, 253
Hanson, R. P. See Karstad
Hemolysin, intercellular transfer and avidity, 197
Hemolytic and complement-fixing activities, related to antibody size, 69
Herpes simplex infections following section of the trigeminal nerve, 161
Hill, G. A. and Marcus, S. Resistance induced against *Histoplasma capsulatum:* Quantitative aspects, 26
Histoplasma capsulatum
  Antigens from the yeast phase, 45
  Resistance induced to, 26
Holper, J. C. and Marquis, G. S., Jr. Inhibition of influenza virus multiplication in swine kidney cells by lactalbumin hydrolysate, 288

Influenza virus, inhibition in swine kidney cells by lactalbumin hydrolysate, 288
Irradiation, effect on spleen during hemolysin formation, 238

Jackson, G. J. Fluorescent antibody studies of *Trichinella spiralis* infections, 97

Karstad, L. and Hanson, R. P. Natural and experimental infections in swine with the virus of eastern equine encephalitis, 293
Karstad, L., Spalatin, J. and Hanson, R. P. Experimental infections of wild birds with the viruses of eastern equine encephalitis, Newcastle disease and vesicular stomatitis, 188
Krueger, B. J. See Bloom

Lactalbumin hydrolysate, inhibitor of influenza virus in swine kidney cells, 288
Lee, C. L. See Lewert
Leishmania tarentola, in avian embryos, 18
Leprosy bacilli, human, in cultures of human cells, 73
Leptospira pomona, detection in urine, 118
Leptospires, immunochemistry of, 280
Leucocyte distribution in infected albino mice, 222
Lewert, R. M., Lee, C. L., Mandlowitz, S. and Dusanic, D. Inhibition of the collagenase-like enzymes of cercariae of *Schistosoma mansoni* by serums and serum fractions, 180
Litwin, J. The growth cycle of the psittacosis group of micro-organisms, 129
Luckey, T. D. See Gordon

Mack, W. N. See Bloom
Mallmann, W. L. See Bloom
Mandlowitz, S. See Lewert
Marcus, S. See Hill
Marquis, G. S., Jr. See Holper
McGhee, R. B. The infection of avian embryos with crithidia species and *Leishmania tarentola*, 18
Mice, normal albino, influence of infection upon, 222
Morris, J. A. and Nakamura, K. Behavior of human leprosy bacilli in cultures of human cells, 73

Nakamura, K. See Morris
Newcastle disease, experimental infection in wild birds, 188
Nishio, J. See Salvin

Pizzi, A. K. See Taliaferro
Phosphatase, alkaline, in *Schistosoma mansoni*, 1
Psittacosis group, growth cycle, 129

Rabbits, responses to Coxsackie infections, 54
Rabies, in bat, effect of metabolic level on pathogenesis, 267
Resistance, induced, to *Histoplasma capsulatum*, 26
Reticuloendothelial system of infected albino mice, 222
Reyniers, J. A. See Gordon
Ristic, M. See White
Ritterson, A. L. Innate resistance of species of hamsters to *Trichinella spiralis* and its reversal by cortisone, 253
Rose, H. M. See Ellison
Rothstein, N. and Wolman, F. Studies of the immunochemistry of leptospires. III. Serologic characterization of the complement-fixation antigen, 280

Sadler, W. W. and Enright, J. B. Effect of metabolic level of the host upon the pathogenesis of rabies in the bat, 267
Salvin, S. B. and Smith, R. F., with the technical assistance of A. Cobure and J. Nishio. Antigens from the yeast phase of *Histoplasma capsulatum*. III. Isolation, properties, and activity of a protein-carbohydrate complex, 45
Sapp, T. M. See Cohen
Schistosoma mansoni
  Histochemical observations of alkaline phosphatase in, 1
  Inhibition of cercarial enzymes by serums, 180
Sensitization, passive, histopathologic cardiovascular responses to, 124
Smith, R. F. See Salvin

Spalatin, J. See Karstad
Spleen, quantitative changes during hemolysin formation after irradiation, 238
Stomatitis, vesicular, experimental infection of wild birds, 188
Streptococcus pyogenes, growth within agar discs implanted in rabbit peritoneum, 168
Süssdorf, D. H. Quantitative changes in the white and red pulp of the spleen during hemolysin formation in X-irradiated and nonirradiated rabbits, 238

Taliaferro, L. G. See Taliaferro, W. H.
Taliaferro, W. H., Taliaferro, L. G. and Pizzi, A. K. Avidity and intercellular transfer of hemolysin, 197
Tamimi, H. A. The effect of buffered glycerol saline and formalized buffered glycerol saline on the viability of enteric bacteria and enteric phage, 274
Trichinella spiralis, fluorescent antibody studies of, 97
Trichinella spiralis, reversal of innate resistance in hamsters by cortisone, 253
Trypanosoma lewisi, antibodies, studies of, 76
